

Heat-Health Alert summary action card for national government

This is a summary of the suggested actions for each Heat-Health Alert level. Check the [Heat-Health Alert action card for national government](#) for more detail, including the required actions for summer preparedness, and adapt actions to your service as appropriate.

Summary actions for Yellow Alert

- A yellow alert will be sent by the UK Health Security Agency (UKHSA) to those registered to receive the alerts and via other information cascades
- UKHSA and Met Office will continue to monitor the weather forecast and undertake dynamic risk assessment considering the likely temperatures and expected impacts and adjust the alert accordingly
- Organisations will monitor their own information and intelligence
- UKHSA will make advice available to the public and professionals in affected regions via the NHS, Department of Health and Social Care, and Met Office websites

Summary actions for Amber Alert

- Continue Yellow Alert actions
- UKHSA will send an amber alert to those registered to receive the alerts and via other information cascades
- Central government departments should cascade the alert and other relevant information through their own stakeholder networks and front-line communication systems

Summary actions for Red Alert

- Continue Amber Alert Actions
- All departments and agencies to be prepared to feed into situational awareness as appropriate and coordinated by Cabinet Office
- Implementation of national emergency response arrangements by central government
