Ämne: RE: Notification according to commission implementing regulation (EU) 2016/779, dnr 02651/2020

Dear colleagues,

Apologies for the delayed reply. Considering all the parallel exchanges on this topic, we aimed at a single communication to all members of the EG and health attaches.

In the light of the general instructions sent in our earlier mail, we would consider your e-mail of 25 June as the notification to the Commission as you inform us that you initiated the procedure and you refer to Article 5 of the Commission Implementing Regulation (EU) 2016/779. You should also notify all the MS's via their health attaches in Brussels.

From the practical perspective, in order to prepare for a possible EU procedure for determining whether a tobacco product has a characterizing flavor, we would be grateful to learn more about your exchanges with the manufacturer and in particular information received from the manufacturer or importer in accordance with Article 4(2), including their identification, to the extent possible, of any other Member States in which the same product has been placed on the market. The information received pursuant to Article 4(2) shall be communicated to the other Member States and the Commission.

Subsequently, we would provide you with further practical information should the Commission decide to consult the independent advisory panel established pursuant to Commission Implementing Decision (EU) 2016/786.

Best wishes,

[Redacted]

Health and Food Safety DG (SANTE) - European Commission

Ämne: Notification according to commission implementing regulation (EU) 2016/779, dnr 02651/2020

Dear Tobacco Control Team,

We have, on the 10th of June, initiated a procedure in accordance with the commission implementing regulation (EU) 2016/779, for determining whether several tobacco products has a characterising flavour. The procedure comprises all the products listed in the attachment "Bilaga 1". According to art 5 of the implementing regulation (EU) 2016/779 we shall notify the Commission and all other Member States of the initiation of the procedure.

Is this email enough as a notification and how do we notify all other Member States? Shall we notify them by using the mailing list of the Tobacco Policy Group?

Kind regards
