

The European Technical Advisory Group of Experts (ETAGE)

convened by the World Health Organization
Regional Office for Europe has validated that

United Kingdom
of Great Britain
and Northern Ireland

**has reached regional targets for control
of hepatitis B through immunization**

This achievement greatly contributes to the goal of eliminating viral hepatitis as a
public health threat throughout the European Region.

7 November 2022

On behalf of the European Technical
Advisory Group of Experts

Professor Adam Finn
Chair
