Gambling-related harms: evidence review Expert Reference Group members' declarations of interest

Academic/Charity/Voluntary

I have spoken at conferences where the meeting has received funding from the gambling industry (e.g. the New Horizons in Responsible Gambling conference). I have reviewed research grant applications for research bodies funded directly or indirectly by funds from the gambling industry and government agencies.

I am on academic councils / advisory groups for the UNLV International Center for Gaming Regulation, the Asia Pacific Association for Gambling Studies, and the Research Committee of the National Council for Problem Gambling.

I have received honorarium from Springer-Nature for journal editorial work, and from Elsevier for book proposal reviews. I have received expenses and honoraria from a number of universities for invited talks and graduate examinations. I am on the editorial boards for a number of journals that focus on gambling and addictions (Addiction, International Gambling Studies, Psychology of Addictive Behaviors, Addictive Behaviors, Journal of Gambling Studies).
