Dear all,

Would it be possible for us to give a short Power Point presentation?

Best wishes

Hi all,

Meeting with IBVTA who have been working on the data from testing for e-cigs, specifically looking at the difference changing the parameters of testing makes. This is an opportunity for us to learn more about that and the kind of things that show up (or in this case don't) above trace amount levels.

Please accept if you are free.
