Martin,

Can you please complete and return the attached release form so that ITN can come and interview you at PHE.

Best wishes

Martin,

August is clearly a busy month! [REDACTED] can only book a room at CRUK for the afternoon. I therefore propose that we come to PHE in the morning between 11:00 and 12:00 to film you as previously planned. ITN can then go and film [REDACTED] at CRUK.

Best wishes

Yes. I think that would be the best plan.

I will release the room bookings (they are much in demand even in August).

It seems we are good to interview here in a room, possibly with the blinds down if it overlooks an area where staff are visible.

I have booked us a room from 10-11 and another from 11-12. The rooms seem implausibly busy for the civil service in August, but if you can let me know which slot works best I will cancel the other one.

Interesting. We need to get permission for filming in Govt buildings but should be ok in a meeting room. If we were doing first thing it might be better to do CRUK.

On 17 Jul 2017, at 21:04, [REDACTED] <[\[REDACTED\]@ibvta.org.uk](mailto:[REDACTED]@ibvta.org.uk)> wrote:

Dear Martin,

The Independent British Vape Trade Association, whose members have no links to the tobacco or pharmaceutical industries, have been invited by the Royal Society for Public Health (RSPH) to make a four-minute film on vaping for a winder piece that the RSPH is making entitled, 'The Public's Health Across the Life Course'.

The film will be made by ITN Productions, working in partnership with the RSPH, and will be in the style of a news programme. The item will be presented by well-known news reader [REDACTED].

The film will be premiered at the RSPH Awards held at the East Wintergarden, Canary Wharf on the 19th October 2017. Following which the film will feature in an RSPH campaign over the next 12 months.

We have been asked to suggest certain key people to feature in the film, and we would very much like it, if you were able to be involved.

What would this involve?

You would be interviewed by [REDACTED] [REDACTED] for about 20 minutes on the subject of vaping. Specifically, we would like your interview to cover the PHE work that came up with the at least 95% less harmful figure, to cover how PHE has warned that misinformation about vaping, including sensational and inaccurate press coverage or overinterpreted studies, is warping public perceptions of the risks posed by vaping, possibly deterring smokers from switching, and to how England is leading the way in maximizing the benefits of vaping.

You would of course be totally free to say whatever you wish and as you would expect from such a film there will be no references to specific vape businesses or products. We can also confirm that no one with any links to the tobacco industry will be involved in the film.

We feel this is a timely and important film and are pleased to be working with RSPH and ITN Productions.

██████████ has already agreed to participate in this film, and we hope that, alongside yourself, that ██████████, a vaper, a representative of the independent vape industry, and a representative of the Department of Health (hopefully ministerial level) will also take part.

Filming would take place in London in August. IBVTA would cover your travel costs.

If you were able to take part in this film, could you please let me have details of your availability in August. Thank you.

If you have any questions, please do not hesitate to contact me.

Best wishes
