

**Title of meeting** Public Health England (PHE) and British American Tobacco (BAT) discussion about notifications and testing of Tar, Nicotine and Carbon Monoxide (TNCO)

**Date** 25<sup>th</sup> May 2018

**Time** 10:00am

**Venue** By Skype

**Attendees** PHE [REDACTED], [REDACTED]  
(Chair) and [REDACTED], [REDACTED] (minutes).

**British American Tobacco:** [REDACTED], [REDACTED]  
[REDACTED]; [REDACTED], [REDACTED]  
[REDACTED] and [REDACTED] [REDACTED].

## Minutes

### 1. Welcome and introductions

[REDACTED] welcomed attendees and reminded them of the requirements of Article 5.3 of the Framework Convention on Tobacco Control and that a note of this meeting would be produced and published.

### 2. Notification requirements for tobacco and related products sold in the UK

The purpose of this meeting was to discuss the notification and submission of cigarettes for testing of tar, nicotine and carbon monoxide (TNCO).

The discussion held was commercially sensitive.

PHE agreed to provide BAT with a list of all cigarettes that were notified, to enable BAT to cross check this list with those being sent for testing to ensure that all cigarettes that required testing would be submitted.

Meeting closed at 10:55am.
