1. Overview

The Joint Biosecurity Centre (JBC), part of NHS Test and Trace, aims to identify early outbreaks of COVID-19 and to ensure local and national decision makers have access to expert analysis and insights when responding to outbreaks within their jurisdictions. The JBC has developed analytical methodologies to assess data and contextual information to build a picture of COVID-19 risk to the UK. This enables local and national decision makers to manage the COVID-19 risk from both National and International transmission.

Recognising the need to ensure Ministers from all four nations can contribute to JBC oversight, the JBC Ministerial Board will ensure the JBC is delivering its objectives as effectively as possible, with a strong spirit of collaboration and partnership, for all four nations of the UK.
