

DDaT Profession group on Knowledge Hub

Hi,

This email is to notify you that you now have access to the [DDaT Profession Group on Knowledge Hub](#).

The Wiki has lots of sections with guidance on various aspects of the DDaT Profession. To access the Wiki use the top-grey bar - in its sections you will find, for example:

- **Capability Framework resources including:**
 - a filterable spreadsheet containing all the roles, role-levels, skills-levels and skills-descriptions
 - guidance on mapping jobs in an organisation to the roles on the DDaT Profession framework
 - indicative grades for roles
- **Job Descriptions** (A full set to use for each role)
- **Assessment** guidance & templates (A full set to use for each role)
- **DDaT pay** approach guidance
- **Career pathway** diagrams etc.

It also has "Comments" functionality on the pages that list the files, so queries can be added there. There is also a Forum section for queries on general 'themes/aspects'.

Please let us know if you have any problems accessing Knowledge Hub or joining the group.

Best regards,

The DDaT Profession team, GDS
