Parks and Open spaces

Characteristic(s) / CSF(s):
Role of the Authority
Managing Expenditure

Problem and Approach

- This project saw the collaboration and the evolving working practices between the Parks and Open Spaces team and the Community Enabling team
- Under Norwich City Council's wider Get Involved banner, to inspire residents to take ownership of spaces in their neighbourhood, identify additional outcomes which can be provided by a different use of green spaces.

Outcomes

- There have been a significant number of residents and groups requesting permission to use council land
- They have created a citywide culture of partnership and collaboration.
