Public Health Approach

Characteristic(s) / CSF(s):
Role of the Authority
Managing Expenditure

Problem and Approach

- The council had achieved a balanced budget without government grant but realised that the whole public spend needed to be addressed and also wished to create improved outcomes for residents.
- The Council brought together services pioneering a new role for district councils in joining up across the health service and local government.

Outcomes

- They Created a public health department that addresses prevention as well as a joined-up response to hospital discharge and the non-medical factors underlying GP attendance.
