

ASTRONOMY ACTIVITIES COMING UP IN OCTOBER & NOVEMBER...

We have a couple of Astronomy-themed events coming up in October and November with Astronomer Steven Gray, here at St Margaret's House.

Take a look below at the two activities we have on offer and get in touch to sign up by emailing us at stillcaring@care4carers.org.uk or call: 0131 661 2077.

THE SEVEN WONDERS OF THE UNIVERSE FRIDAY 20TH OCTOBER 6PM - 8PM

Join the team from Cosmos on an epic voyage of discovery as we discuss our Seven Wonders of the Universe. The session is full of amazing space facts, fun cosmic coincidences, and stories of discovery. The session will include some stargazing with telescopes or a tour of the night sky using software and virtual reality headsets if the sky isn't clear.

TELESCOPE MAKING WORKSHOP TUESDAY 28TH NOVEMBER 2PM - 4PM

Take a trip back in time to the earliest days of space discovery and learn how the astronomers of the past used telescopes to change our understanding of the Cosmos forever. This fun and informal session includes making your very own basic telescope just like the ones used by those early pioneers of science.
