

Don't miss out on financial help!

If you live in Edinburgh and are the parent of an adult or child with a disability, development delay or long-term health condition, please contact us to see whether you/your loved one is missing out on financial help. [Click here](#) to make a referral or email careradvice@actiongroup.org.uk

A friendly member of the Parents Carewell Team will get in touch with you.

Every year we meet families who have been missing out on financial entitlements for years because they didn't get advice and help at the right time or took advice from a friend or professional that didn't have full benefits knowledge. Sometimes a rule changed or new payments developed that they didn't know about. This money could have made a huge difference. Make sure you or your loved one access all the financial support you are entitled to.

We're part of the
**Parents Carewell
Partnership**

"The service I received from the team, has enabled my son to receive benefits that really help and support him and that are important to him."

"...I received the Higher Rate which has seriously been life changing effected my life and health. They helped me in many ways - I had not known I would be eligible. Pressure lifted."

"Excellent if I did not have this first-class service I would have just given up. to him"

"My son is receiving DLA now, thanks to my advisors help.."

"The outcome was very favourable and helped to relieve a lot of anxiety."
