Food and Mood

FOOD AND MOOD

Food provides our bodies with fuel so we can be active. What we eat can alter our mood in either a good or negative way. Proteins, fats, fruit and vegetable, caffeine and water in our foods, all affect our mood.

Inside our stomachs, we have a special chemical (Leptin) that makes us feel full and satisfied. Protein in foods help our bodies make Leptin. This can make us feel happier

DON'T AVOID FATS

Brain Health: Your brain needs fats such as omega 3 (oily fish) and omega 6 (nuts and Seeds) to keep it working well.

Body Health: Fats are needed to make inflammatory cells which help heal our bodies.

Each fruit or vegetable contains different vitamins.

Without vitamins, our bodies wouldn't be able to perform vital tasks such as, building bones and keeping our teeth in good working condition.

MANAGE YOUR CAFFEINE

Can you match these products to the amount of caffeine they each have?

Caffeine is a stimulant and can temporarily make us feel more alert or less drowsy. Effects from caffeine can stay in our bodies for 7 hours. Having too much caffeine can cause us to not sleep well, have an upset stomach, feel unhappy or anxious. For children 4 years or older, an occasional caffeine treat is ok and around 45 mg per day is recognized as a safe amount, but caffeine shouldn't be a daily part of a child's diet. Choose a can of coke or a chocolate bar

Water Maze

It is important to drink plenty of fluids. Not drinking enough can cause dehydration which can make you dizzy or lightheaded and feel tired. Water is a healthy and cheap choice for quenching your thirst at any time. It has no calories and contains no sugars that can damage teeth.

The 5 Ways to Wellbeing are:

Connect
with other
people

Be
physically
active

Learn new
skills

Give to
others

Take notice

What you will need to play the 5 ways to wellbeing game:

- 2 – 4 people to play
- A Dice

How to play

1. Cut out the counters below or why not make your own?
2. Cut out the wellbeing cards on the next sheet.
3. Each player takes turn to roll the dice.
4. The player with the highest roll goes first then move clock wise while playing the rest of the game.
5. If you land on a wellbeing card square pick up a well being card and perform the task. If you successfully complete the task move forward 1 square.
6. The first player to the finish square wins.

Tip: Laminate this sheet and game pieces, or place them in a poly pocket to keep everything safe.
